39	7.2	10.6
40	7.5	10.3
41	7.9	10

Free Beginner's Heart Pattern.

Pattern made by Katrina Robson.

Thank you for supporting me. More of my patterns can be found [here](#).

Book Height: 20cm

Number of pages needed: 82

Leaves: 41 *

*We always double the amount of leaves to work out how many pages we need. This is because if you look at a leaf (one piece of paper in a book) it is numbered on each side. So by folding this one piece of paper, you are folding two pages. Don't worry if this sounds confusing. There are some more comprehensive instructions in the files of my group 'Book Folding Patterns by Foldilocks' and you are welcome and encouraged to ask for help in the group. Remember to post a picture of your finished masterpiece!

Katrina :-)
